

Chess Art Summer Camp 2021

These are our COVID-19 guidelines, protocols and suggestions based on the American Camp Association (ACA) and other experts in the hygiene and sanitation fields.

- Campers will be separated into small groups and cycle through different activities (chess, art, ceramics and sports) with their respective coaches. Each activity will take place in its own separate and sanitized classroom. Each group will learn, play and have lunch together, and will not interact with campers in other groups. Classrooms will be sanitized in between activities. Most of the activities will be held outside next to some amazing nature!
- Campers are required to wear face masks at camp for activities inside the classrooms. Please bring your own labeled mask, masks are not mandatory for outside activities or sports. Please understand that there is an assumed and accepted risk involved in attending camp or leaving your home.
- Unfortunately, COVID19 guidelines do not allow parents to enter the campground. A car line will be used for drop-off and pick-up. Our coaches will greet the campers and take them inside camp. Parents will have their child's coach contact information beforehand.
- Campers need to bring their own lunch as well as a morning and afternoon snack. Water bottles MUST be labeled with the camper's name and lastname.
- If possible, older people such as grandparents or those with serious underlying medical conditions should not pick up children.

- Campers will be required to undergo temperature reading through their vehicle window. We will utilize a contactless forehead thermometer. Anyone displaying a temperature of 100.4 or above will result in the student being sent home for proper care. Campers may return to camp when they are temperature free for 72 hours and without fever reducing medicine. They may be directed to obtain a medical note indicating a negative finding for COVID-19 before returning to camp. We encourage you to check your child's temperatures prior to leaving home, as an extra layer of precaution. If the camper shows a regular temperature, the camper will be checked into camp.
- Campers and Staff who present with ANY symptoms of COVID-19 will not be permitted to enter our campus for a minimum of 10 days. And only at that time a credit for days/weeks missed (due to a confirmed case of COVID-19) will be issued to campers account when presented with a doctor's note. These symptoms include, but are limited to *cough, fever, runny nose, headache, shortness of breath, muscle pain, sore throat, loss of smell/taste, chills/shaking, and/or difficulty breathing*. Families and Staff members are required to notify the camp if they have come down with any of these or other cold/flu-like symptoms. Families should keep campers home if they have knowingly come in close, personal contact with someone with Covid19.
Please make sure you follow these guidelines before you leave your home.
- We will encourage campers to use washing stations frequently. Restrooms will be sanitized throughout the day. Please talk to your camper/s about proper hand washing.
- Water Stations: Campers are required to bring a LABELED water bottle to camp and leave it at camp. They will be reminded to keep hydrated throughout the day.

Thank you for registering and know that we are a phone call away if you have any questions!
